

# ProGreez Extra

## Foaming Degreaser & Cleaner

It is made to penetrate heavy grease and grain in difficult to penetrate areas. Formulation contains powerful grease stripping and metal cleaning solvent. ProGreez extra cleans anything and removing the toughest grains.

ProGreez Extra is chosen for oil and gas industry especially in areas of heavy crued build-up.

### Core functionality

- High penetrating sulphonates that has excellent degreasing components.
- Extremely high penetrating capacity used in difficult to clean areas.
- Fast acting surfactants are faster for better cleaning.

### Advantages

- Water-based and soluble
- No VOCs
- High dilutions rates, safe to use on various surfaces
- Easy to store and easy application
- No damage on equipment surfaces

### Physical and Chemical Properties

Physical state	Viscous Liquid
Specific Gravity at 20°C	1.2
Colour	Pale Greenish Brown
Odour	Charecteristic Odour
pH	12.5

### Applications

ProGreez is best used in an industrial setting for tough-to-remove greasing and grime. Heavy soil, spot and stain removing, oil clean-up, engine cleaning.

### Recommendations for dilution

- Heavy deposits 1:2-1:3 parts water
- Medium 1: 10-15 parts water

Suitable for use in mechanical assistance such as scrubbing, brushing, pressure, steam, heat, etc.
