

ProGreez

Foaming Degreaser & Cleaner

Dust, Grease and Grime are common in a manufacturing environment. Over time, residues from greasing and other dust-gathering can cause issues in industrial machinery. An efficient degreaser is a necessity in this environment.

ProGreez – Foaming Degreaser and Cleaner is the best choice for maintenance. It is tough on dirt, grease, and grime and gentle on metal surfaces.

Core functionality

- High penetrating capacity; pulls out thick grease deposits efficiently.
- Removes build-up and contaminants from the surface
- Breaks down grease, grime and debris and separates it from the surface
- A rich formulation of caustic, solvents and surfactants
- Designed for heavy grease deposits and tough to clean areas

Applications:

The foaming degreaser is best used in an industrial setting for tough-to-remove greasing and grime. Heavy/ light soil, machine and metal parts, general shop cleaning, spot and stain removing, oil and fuel clean-up, engine cleaning, floor cleaning, and more are can gain the advantage of this product.

ProGreez stands apart in its uniquely devised formula of the best grade of solvents, cleaning agents, and proprietary surfactants to achieve superior efficiency in maintenance!

Advantages

- Water-based and soluble
- No VOCs
- No fumes and harmful vapours, safe to use on various surfaces
- Easy to store and easy application
- No damage on equipment surfaces

Recommendations for dilution

- Heavy grease and stubborn deposits: undiluted or 1:2 parts water
- Medium for most metal working fluids and hydraulic fluids 1: 10-15 parts water
- Light usage for dust, dirt, particulates and light oils 1:30 water

Suitable for use in mechanical assistance such as scrubbing, brushing, pressure, steam, heat, etc.

Packaging (SKU)

Tester Samples	Commercial Sales
5 Ltr	35 Ltr
20 Ltr	50 Ltr
	200 Ltr
